

Staff Training & Upskilling

3 hours Sessions Workshop

# Understanding HIV & AIDS

## South Africa's HIV & AIDS Epidemic... Impact on Business... The Impact on YOU !

---

### Who should attend?

There are currently more people infected with HIV, the virus that causes AIDS, living in South Africa than any other country in the world. This is a sobering statistic that has significant implications for South African Businesses.

This 3-hour workshop is designed to help staff and managers, understand the business challenges of the epidemic and to minimise the impact of the epidemic on the business. The intervention is designed to enable employees to understand the significance of the threat, how to best avoid infection, how to relate with infected colleagues and how best to live a long and productive life with HIV/AIDS that is, if one discovers that one is already infected.

### How will you benefit?

- Get a clear understanding of the extent of the epidemic and the implications for business
- A Basic understanding of the macro-economic impact on the SA economy and various market sectors
- Understand the methods of infection and the progress and development of the disease
- Current treatment options and their effectiveness
- How to live positively with HIV and AIDS

### What will you cover?

- Accurate data on the extent of the global and regional epidemic
- Methods of transmission
- Effective prevention of infection
- Ensuring workplace safety
- How to relate and interact with an infected person
- Responsibilities of management and staff

### What is included?

All courses are given by expert facilitators in small interactive classes. The manual and course materials are specific to the course and you will receive a personalised certificate on completion.
