

Staff Training & Upskilling

1 Day Workshop

Safety in the Workplace

Who should attend?

Workplace accidents and injuries cost companies millions of Rands and thousands of hours lost every year. They also have a profound, often lifelong impact on workers. Introducing a safety culture into your organisation, where safety is valued as an integral part of the business' operation, not only saves the business time and money, it also builds a committed, loyal, healthy workforce.

This one-day workshop will give you the foundation to start building your safety culture.

How will you benefit?

- Understand the difference between a safety programme and a safety culture
- Have some resources to help you understand the regulations affecting your area of business
- Be able to launch a safety committee
- Understand how to identify hazards and reduce them
- Know some hiring measures that can improve safety
- Understand what a safety training programme will involve
- Be able to identify groups particularly at risk for injury and know how to protect them
- Be able to help your organisation write, implement, and review a safety plan
- Be better able to respond to incidents and near misses
- Understand the basics of accident investigation and documentation

What will you cover?

- Defining a safety culture
- Governing bodies and resources
- Starting a safety committee
- Identifying and resolving hazards
- Taking proactive measures
- Identifying groups at risk
- Writing a safety plan
- Implementing the plan
- Incident management
- Reviewing the programme

What is included?

All courses are given by expert facilitators in small interactive classes. The manual and course materials are specific to the course and you will receive a personalised certificate on completion.
